Experience

**Member of the Board of Directors and Risk Manager
And head of Governance Committee
At FIPCO**

Filling & packing Materials Mfg.co (Public stock company)
Riyadh, saudi arabia — jan 2016-now

- As an Executive Board member, I link the Board with the Executive Management to increase the Board effectiveness.
- Supervise directly the corporate governance and compliance applications in accordance with the CMA regulations and the Ministry of Commerce and Investment and best international practices.
- Supervise directly the annual report of the Board of Directors.
- Directly supervised the establishment and development of the Investor Relations Department.

As head of Governance Committee

- I have done all the policies and procedures related to the board of directors, for example:

- * Policy and standards for membership in the Board of Directors
- * Directors' remuneration policy
- * Conflict of interest policy
- * Related Party Disclosures policy
- * Disclosure and transparency policy
- * And other policies for the Board of Directors and its committees

As Risk Manager

Maintain and further embed the FIPCO risk management framework to support robust risk and reward trade-off outcomes

Assist the Group to integrate balanced risk and reward considerations into decisions that support their growth objectives.

Take a strategic view of risk management, focusing on issues that cut across the entire Group

Develop innovative, effective and efficient approaches for the way that we manage risk across the FIPCO group of companies

Facilitate the development and implementation of an integrated Business Continuity Management framework across FIPCO and its subsidiaries FPC .

Accountable for bottom up and top down quarterly risk facilitation with Management Committee and Board of Directors

Intensive risk training and advocacy across the group to foster a risk culture that enables effective decision making at all levels of the organisation
